

The **Sema** MPC (Milk Pump Controller)

Has a lot in common with a swimsuit model!

It's Good Looking!!

It's Light Weight

And it Loves the Water

The Sema MPC is the next generation of Milk Pump Controller. Smaller, lighter, tougher, smarter and cheaper.

Evolution

The 20th Century

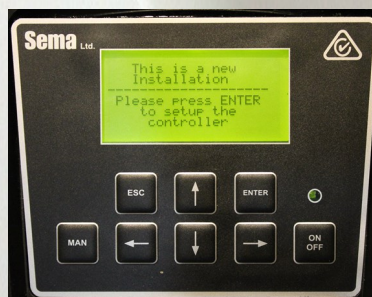

The 21st Century

All things Evolve and Milk Pump Controllers are no exception. The Sema MPC uses 21st century hardware and technology to make a better Milk Pump Controller.

Features:

- Based on a top quality European Variable Speed Drive
- The Keyboard and Microcontroller are manufactured and programmed in New Zealand
- Rated IP66. Waterproofed against high pressure water jets from any direction.
- Computer style keys whose functions are understood by 99.9% of the population
- All functions can be adjusted while the pump is running
- Built to LAST
- Designed for New Zealand power conditions. Surge suppression and low voltage ride-through built in.
- Incredibly good value for money.
