

The **Sema** WPC (Water Pump Controller)

Built using the same hardware as the Sema Milk Pump Controller

Available in sizes up to 7.5Kw

And, just like the Sema Milk Pump Controller, it's Waterproof!!

Great Quality, Great Value

Extremely easy to set up and use

Features:

- Based on a top quality European Variable Speed Drive
- The Keyboard and Microcontroller are manufactured and programmed in New Zealand
- Rated IP66. Waterproofed against high pressure water jets from any direction.
- Computer style keys whose functions are understood by 99.9% of the population
- All functions can be adjusted while the pump is running
- Built to LAST
- Designed for New Zealand power conditions. Surge suppression and low voltage ride-through built in.
- Incredibly good value for money.

Works with any pump. You don't need a new pump to get great pressure regulation and power savings. The WPC also extends the life expectancy of your pump whether it be new or old.
